Property Address

---

Description of Inquiry:

---

The property located at the address above has been located on the city's Flood Insurance Rate Map (FIRM). The following information is provided:

Community ID number: 480599

The property is located on panel number: \_\_\_\_\_

Date of the FIRM index: March 21, 2019

The property is located in FIRM zone: \_\_\_\_\_

\_\_\_\_\_ IS located in a Special Flood Hazard Area. The base flood elevation at the property is \_\_\_\_\_, NAVD and the site elevation is \_\_\_\_\_. Federal law requires that a flood zone determination be done as a condition of a federally backed grant or loan to determine if the structure is in an SFHA and if so, to require flood insurance. This letter is not to be considered a flood zone determination. It is up to the lender to determine whether flood insurance is required for a property.

\_\_\_\_\_ IS NOT located in a Special Flood Hazard Area. However, the property may still be subject to local drainage problems or other unmapped flood hazard. Flood insurance from the National Flood Insurance Program (NFIP) is available at non-floodplain rates. A flood insurance policy can still be required by a lender.

\_\_\_\_\_ A decision about the building's exact location cannot be made on the FIRM. A copy of the FIRM is attached for your information.

---

Additional Information:

---

Flood insurance from the NFIP is available for any property in Haltom City. To find a local insurance agent that writes flood insurance in your area visit <https://www.fema.gov/national-flood-insurance-program>. More information on flood insurance can be found at [www.fema.gov/nfip](http://www.fema.gov/nfip). Questions about this letter or about the City's floodplain management program are welcome at this office by calling 817-840-3575.

NOTE: This information is based on the Flood Insurance Rate Map for Haltom City. This letter does not imply that the referenced property will or will not be free from flooding or damage. A property not in a Special Flood Hazard Area may be damaged by a flood greater than that predicted on the FIRM or from a local drainage problem not shown on the map.
